## **DETAILED ACTION**

### **Response to Amendments**

Applicant's amendments filed on 2/14/2008 has been carefully considered. As a result of canceling claims 2 and 13 and amending claims 1 and 12, the rejection made in the previous office action has been overcome and the application is now in condition for allowance.

### ***Specification***

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Allowable Subject Matter***

Claims 1, 3-12, and 14-22 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly teach or suggest claimed circuit comprising among other limitations, a novel and unobvious limitations of "wherein the first sample switch and the second sample switch sample switch are both controlled by a sample pulse signal" structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 3-11.

Claim 12 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly teach or suggest claimed method

comprising among other limitations, a novel and unobvious limitations of "wherein the first sample switch and the second sample switch sample switch are both controlled by a sample pulse signal" structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 14-22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
